

## Educational Facilities

At DC Engineering, we believe that listening to our clients needs and coupling their expectations and end-goals with our own expertise and experiences will result in a successful project. Our growth stems from our ability to respond to our customer's current and future needs. We do more than provide electrical engineering and design; we become a partner in the success of our clients.

Over the past 10 years, we have been fortunate to work on multiple Education Projects; varying from elementary schools to college campuses. Each represent a balance of energy efficient components, ease of maintenance, and economics of construction. Below are listed samples of the types of work we have accomplished.

- Foundations Academy; Boise, ID
- Sylvan Learning Center; Boise, ID
- Idaho Arts Charter School; Nampa, ID
- Thomas Jefferson Charter School; Caldwell, ID
- Birch Elementary School; Nampa, Idaho
